App Overview

Starting Screen

Once you enter the app, the first screen you will see is this one, where you have three options to log in:

- Login: You log in with an already existing account.
- Register: You register a new account and immediately log in with it.

- Play as guest: You log in with a guest account which allows you to play, view the ranking and other users' profiles, but doesn't save any data from your attempts while playing

Main Screen

Once you log in, regardless of how you do so, you will be met with this screen. In this screen you will be able to play the daily game, the only difference depending on if you use an account or play as guest is that you will not have access to the user button on the top left of the screen. In both this game mode and the infinite mode, you will have 4 tries to guess the image hiding behind the tiles, if you guess it before you run out of tries, a victory screen will pop up and you will gain points, but if you fail four times, a lose screen will pop up and you will see what the answer was.

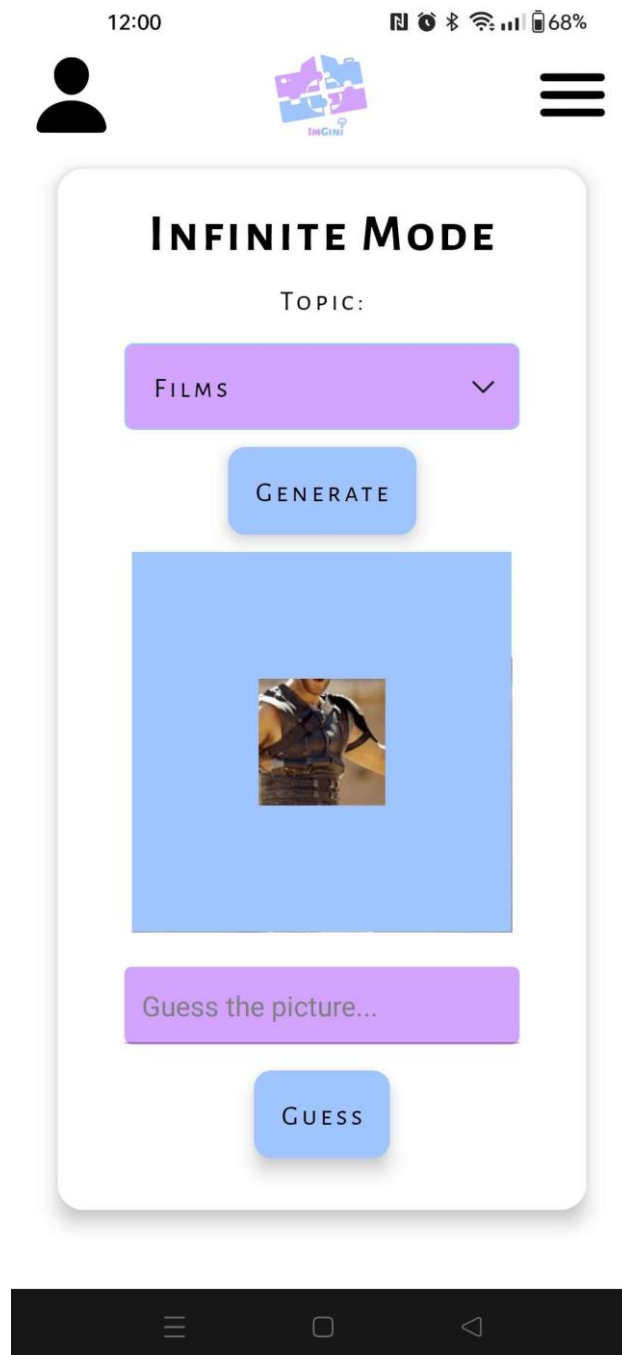

Screen Navigator

In any screen, when you click the icon on the top right of the screen, the screen navigator will slide in from the right and will give you access to any screen inside of the app.

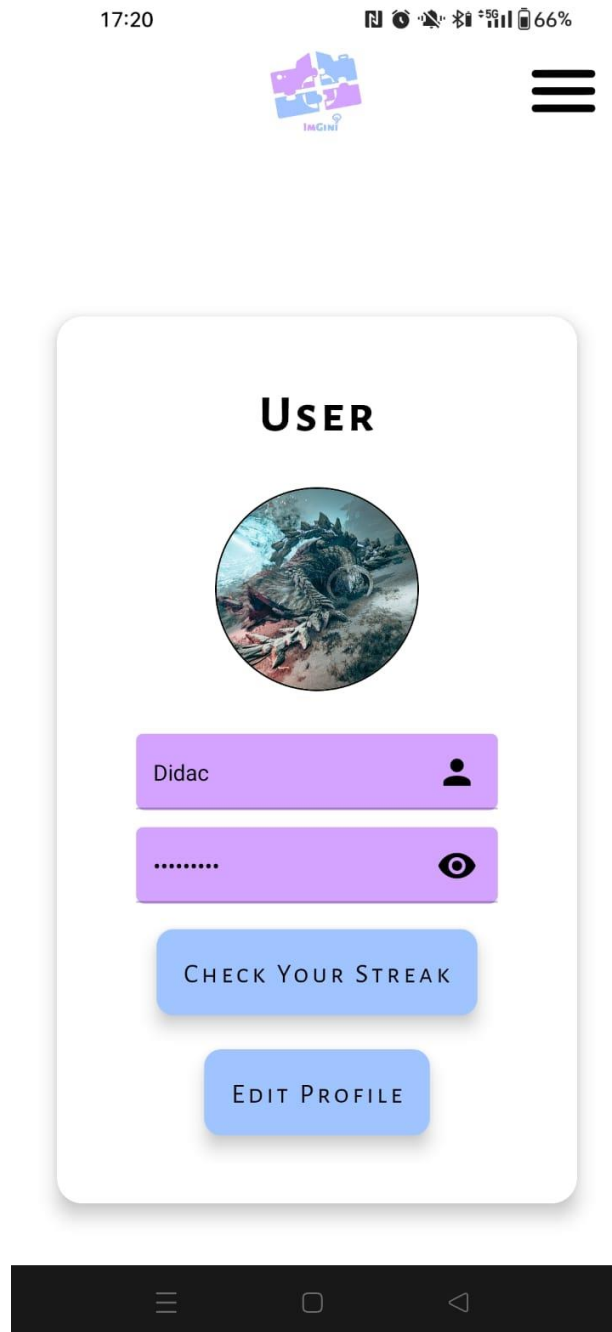

Infinite Screen

If you click on the infinite option of the navigator, you will be able to play the infinite game mode, where you can select a topic for the image you want to guess. While you still have 4 tries for each image, you can play as many times as you want, but when you win, you will not gain any points.

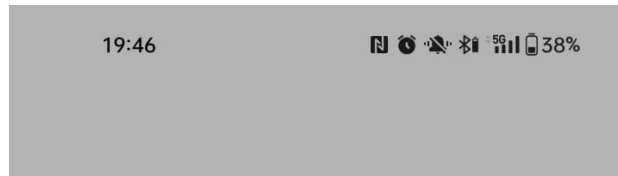

User Screen

In any screen, when you click the icon on the top left of the screen, you will be directed to the user screen, here you will see your profile and have the option to edit it. You will also have the option to check your streak and hit history.

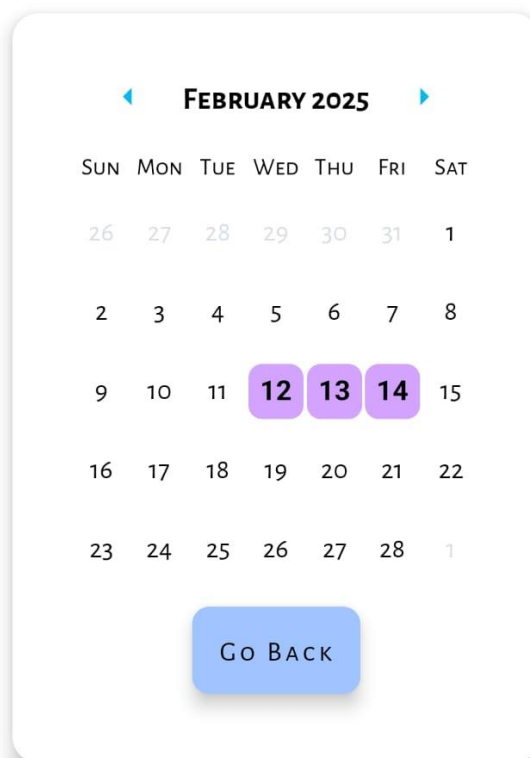

Calendar Screen

When you click on the button to check your streak or another user's streak, this screen will pop up and will show a calendar, marking the days where you or the user you are watching guessed correctly the daily game.

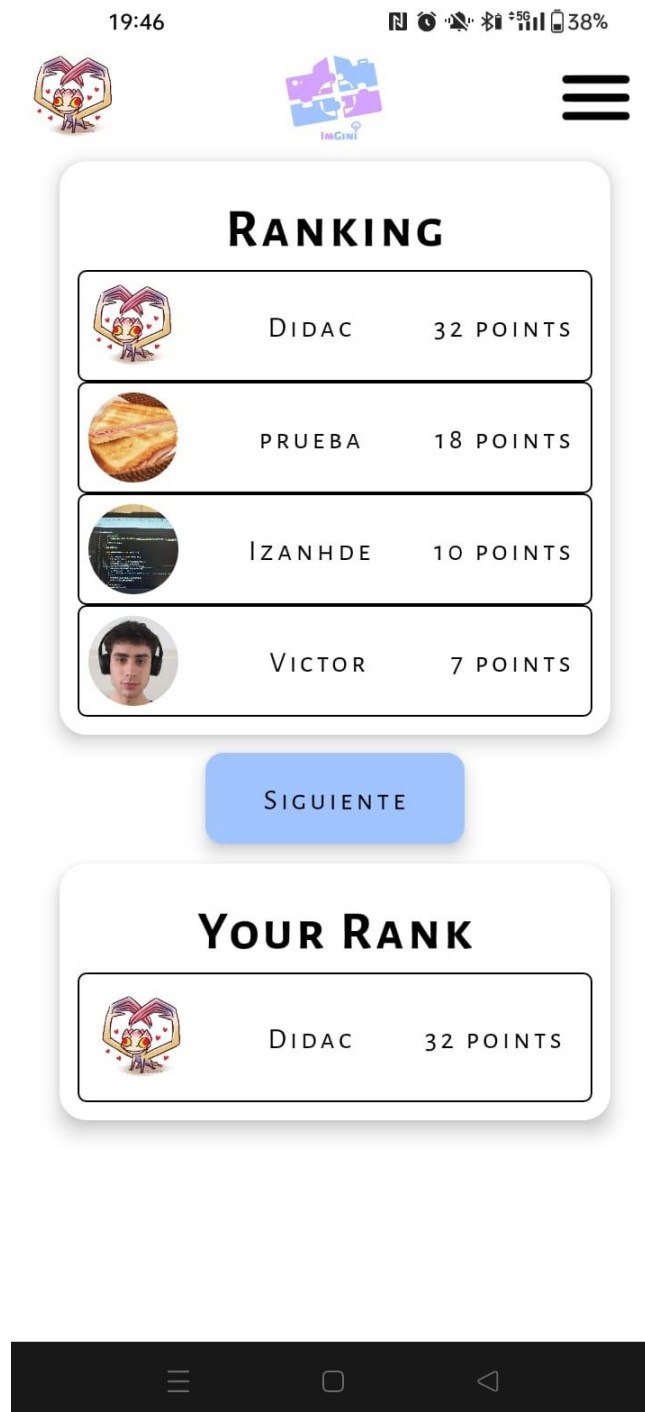

HIT HISTORY

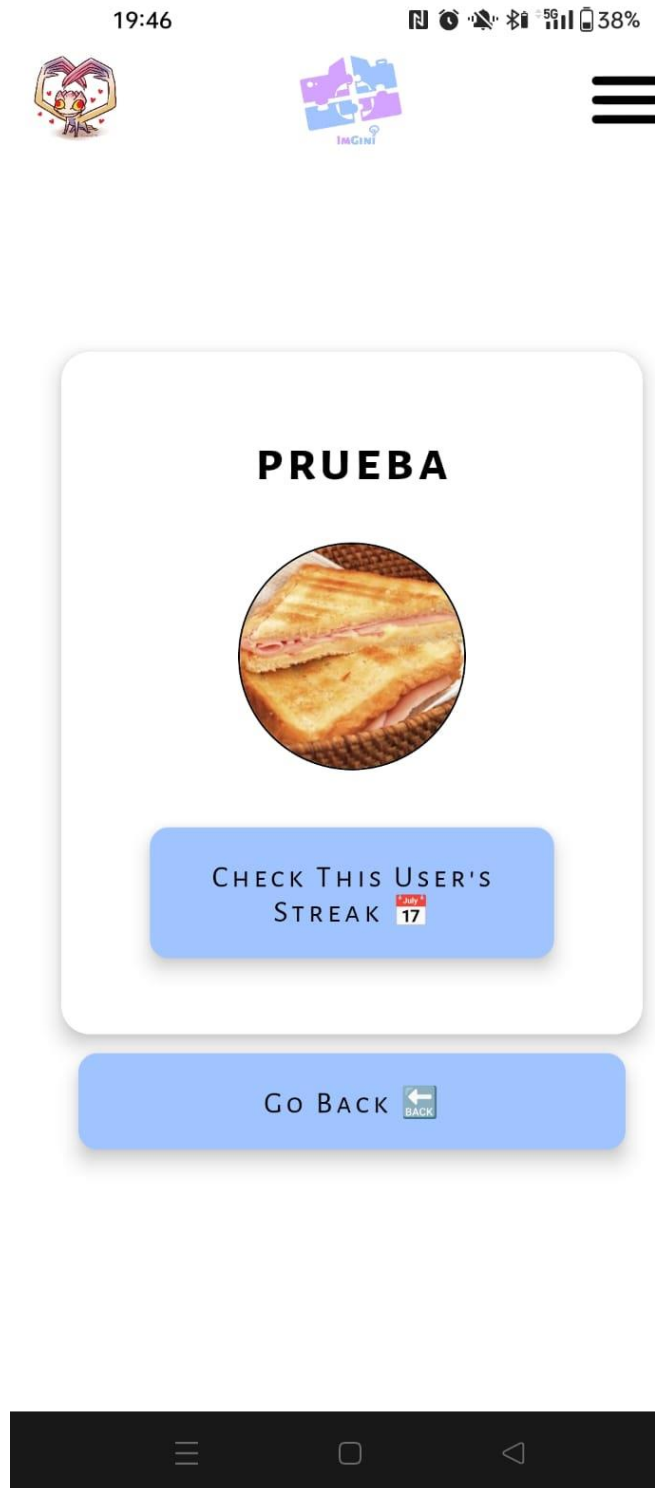

Ranking Screen

When you select the ranking option in the navigator, you will be taken to the ranking screen. Here you can see all the users ranked by number of points and you can also see your points always in the lower part of the screen. When you click in any user, you will be taken to their user screen.

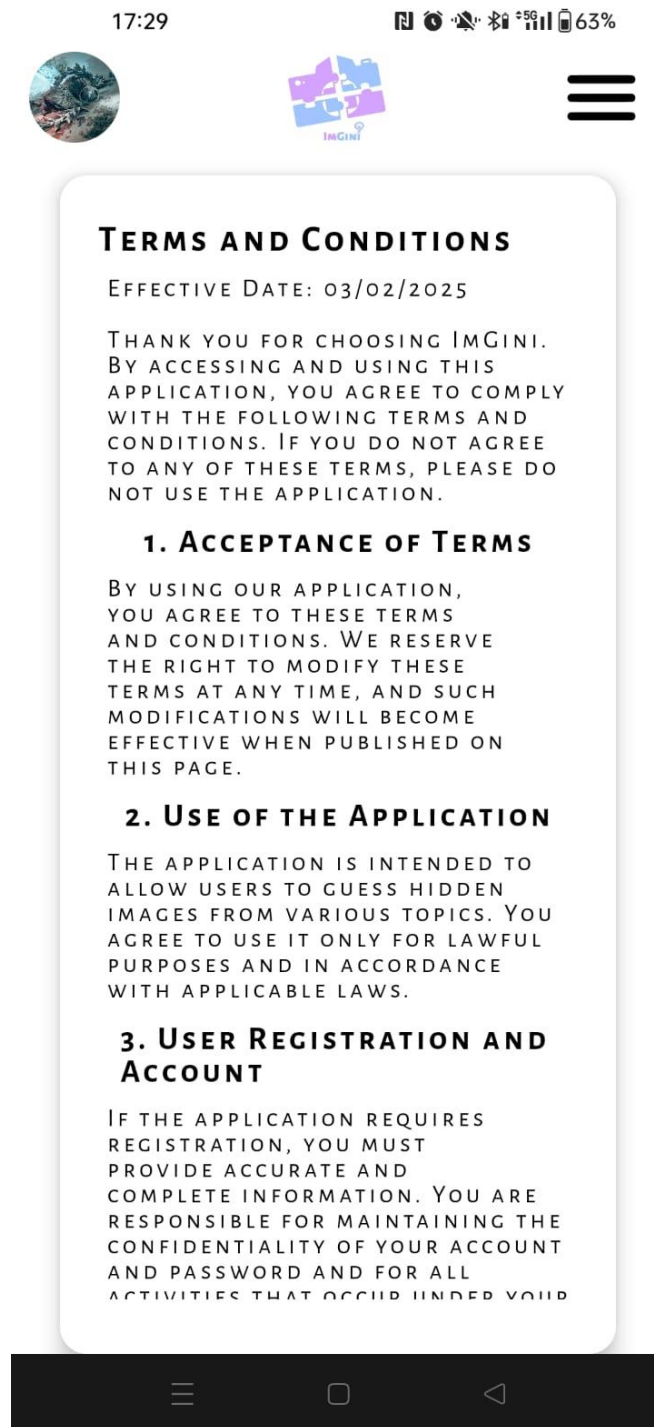

User Viewed Screen

Once you enter another user's profile, you will see their username and picture, with an option to view their streak and hit history the same way you would do to view yours.

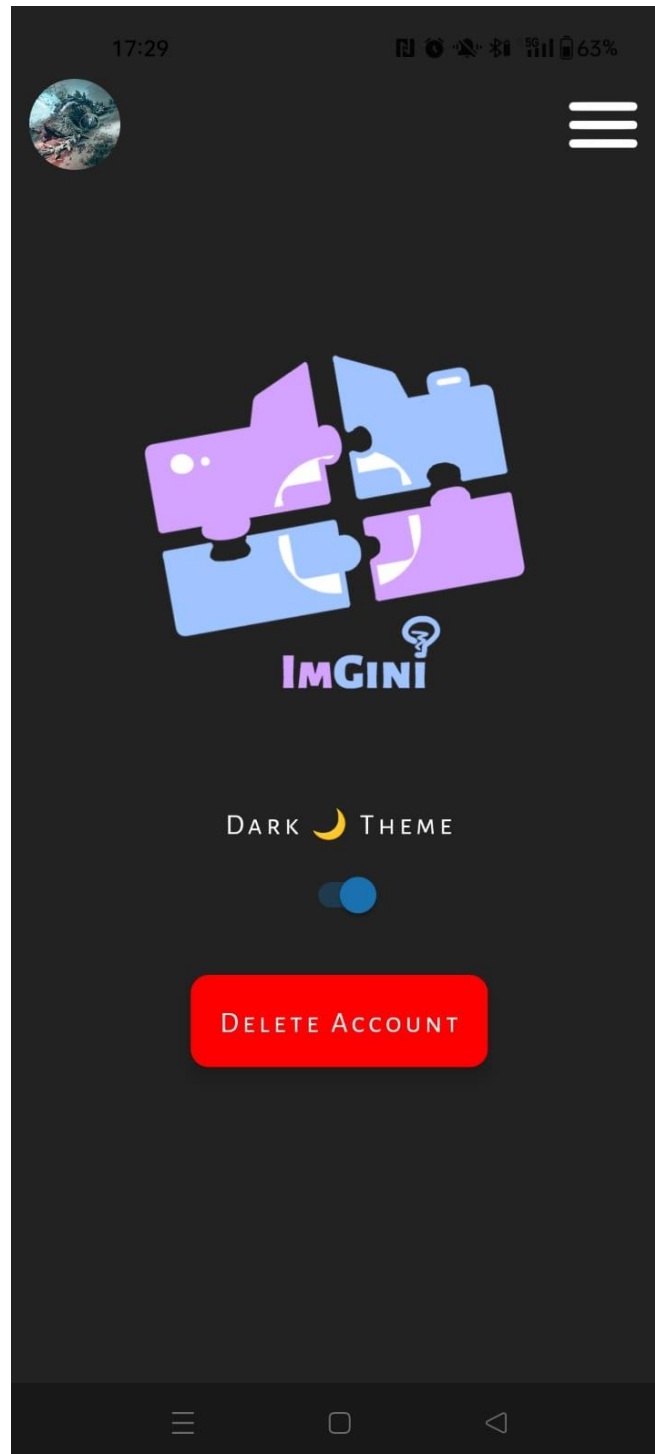

Terms and Conditions

If you choose the terms and conditions option in the navigator, you will be able to read them on this screen. If you enter this screen through the registration screen, you won't see the user button nor the navigation one, and instead you will have a button at the bottom of the screen to go back to the registration.

Settings Screen

Selecting the settings option in the navigator will take you to the settings screen, where you will be able to switch between the light and dark theme for the app, as well as being able to delete your account if you logged using an account, this option is not available for users playing as guests.

Logout Screen

And lastly, if you choose the logout option of the navigator you will be directed to the logout screen, where you will be able to log out of the app and go back to the initial screen.
